The Canyon News

Sixty-second Year | Canyon, Texas | Wednesday, August 14, 1957 | Number 19

JULY USAGE SETS RECORD

A new record for the number of gallons of water used in Canyon in one month was set in July. The daily usage has been down for the past week, as light showers and cooler days have come.

During July, a total of 57,918,800 gallons was pumped through the city water system, records from the pump station show. The new record is more than half a million gallons more than the old record of 51,477,000 set in August, 1956.

July usages have doubled since 1951. Records for each year show that 28,800,000 gallons were used in July, 1951; 31,000,000 in July, 1952; 27,50,000 in July, 1953, when rationing was in effect; 30,000,000 in July, 1954; 34,000,000 in July, 1955; and 40,805,000 in July, 1956.

The July average this year was 1,868,348 gallons per day, while the average last July was 1,311,500 gallons per day.

For the past week, the usages have been 606,400 on Aug. 6, 765,000 on Wednesday, 931,200 on Thursday, 1,171,000 on Friday, 1,-025,200 on Saturday, 860,300 on Sunday, and 1,265,400 on Monday.

Apply Now for Antelope Permit

Applications are being taken now for issuance of antelope hunt permits in two Texas areas in October. All applications must be in the office of the Texas Game and Fish Commission by Aug. 31, according to V. E. Skaggs, chief clerk.

The first hunt will be in the Trans-Pecos area, where either buck or doe may be killed under the permit. This hunt will be divided into two periods, Oct. 1-3, both days inclusive, and Oct. 5-7, both days inclusive.

In the Texas Panhandle the hunts will be Oct. 14-16 inclusive and Oct. 17-19 inclusive. These hunts will be for buck only.

Persons wanting to hunt in either area should write to the Game and Fish Commission in Austin for application blank at once. All applications must be received in Austin by midnight, Aug. 31. A $5 fee must accompany each application and no permits can be issued except where application has been made on the official blank.

Drawing for places on the hunts will be held as soon after Sept. 1, as possible, according to the Chief Clerk.

In preparation for the drawing, which will be held if there are more applications than permits, first priority will be given to per-

(Con't. on Back Page Section 1)

Stevens Services Held in Amarillo

Funeral services for Dudley David Stevens were conducted Thursday afternoon in Boxwell Brothers Ivy Chapel in Amarillo by Dr. Orion W. Carter, pastor of the San Jacinto Methodist Church.

Pallbearers were Wayne Sanford, Archie Pool, J. D. Breitling, Wayne Bagley, Albert Ramsey and Marvin Fite. Burial was in Llano Cemetery.

Mr. Stevens, 76, died Wednesday afternoon in Thurmon Convalescent Home, where he had been a patient for about six weeks. He was born April 19, 1881, in Lee County, Miss.

Survivors include his wife, Mrs. Nona Hoyt Stevens; four sons, Randall County Judge Roy Joe Stevens, Piner Stevens, Canyon, Minard Stevens, Hollywood, Calif., and Lydl H. Stevens, Dimmitt; three sisters, Mrs. Leona Barnett, Wichita Falls; Miss Maggie G. Stevens, Bakersfield, Calif., and Mrs. Mary Warner, Tallahassee, Fla.; and a brother, Homer Stevens, Dallas.

Big Problem

It's hard to decide whether it's more difficult to get a little one to ride the merry-go-round or to get him off when the ride is over. The merry-go-round, boat and car rides, tilt-a-whirl and two ferris wheels will be set up at the Lions Club Carnival on the square for the rest of the week. Beginning Thursday night, booths with entertainment for all will begin operation. Included will be the dunking board, ball throwing, basketball pitching, bingo, refreshments and just about every other carnival attraction. Proceeds will go to the Community Activity Fund. Booths will be open from 5 to 11 p. m.

Veteran English Teacher Slated for Summer Commencement at WT

Dr. Gordon Wilson, head of the English department at Western Kentucky State College for nearly 30 years, will be speaker for summer commencement exercises at West Texas State College.

The graduation rites for some 240 degree candidates will be held Aug. 23 at 8 p. m. in Buffalo Stadium. President James P. Cornette will confer degrees, assisted by Dean Walter H. Juniper and Dr. J. L. Russell, graduate dean.

Dr. Wilson has been head of Western Kentucky's English department since 1928. He became a student teacher at Western in 1912 and an instructor in 1915.

The Kentucky professor is widely known in his state as the author of a column, "Tid Bits of Kentucky Folklore," which has appeared in about 100 Kentucky newspapers for almost 25 years.

Dr. Wilson has also written several books, including "Fidelity Folks," "Passing Institutions," and "Birds of the Mammoth Cave National Park."

He is one of the founders of the Kentucky Ornithological Society, and is a member of the Wilson Ornithological Club, Kentucky Academy of Science, the Society of Natural History, Tennessee Ornithological Society, and is honorary president of the Kentucky Folklore Society.

Dr. Wilson received his A.B. degree from Indiana University in 1915. He earned his M.A. in 1924 and his Ph.D. in 1930, both from the same institution.

Sheriff Talks To Rotary Club

Sheriff L. S. "Slim" Johnston related several of his experiences with juvenile problems in the Canyon and Randall County areas as speaker Tuesday for the Canyon Rotary Club.

Don Standley introduced two guests, Wesley Knorpp and W. Carroll Knorpp, and W. Mitchell Jones entertained three guests. They were W. Mitchell Jones Jr., Marshall Jones, and Robert Campbell. Delbert Lowes was guest of Truett Hull.

Visiting Rotarians were Fred Carpenter of Borger, George Ross of the South and West Amarillo club, Verl Teeter of Tulsa, Gilbert Davis of Hereford, and E. Kancher and Joe Martin of Amarillo.

Mr. and Mrs. Paul Lentner and daughters, Dorothy and Marjorie, of Roswell, N. M., visited Wednesday and Thursday of last week in the homes of Mrs. Lentner's mother, Mrs. Bertha Rhoads, and her sister, Mrs. Levi Cole.

School Budget Hearing Tuesday

A public hearing for the proposed 1957-58 budget of the Canyon Independent School District has been set for 8 p. m. Tuesday in the board room at Canyon High School.

Any taxpayer or interested citizen is invited to attend the meeting to study the budget with the school board. Copies will be available at the meeting.

Amarillo Woman Hurt in Wreck

An Amarillo woman was injured Sunday afternoon in a two-car wreck at the intersection of Seventh Avenue and 8th Street.

Mrs. James R. McCormick, 26, suffered severe scalp lacerations and a concussion and is hospitalized in Neblett Hospital.

Investigating officers said Mrs. McCormick was riding in a car driven by her husband. The car collided with another driven by Minnie Pearl Burgess, 16, of Canyon. McCormick, Miss Burgess and three girl teenagers in her car were not injured.

July Permits Total $37,850

Eight building permits issued in July brought the year's building total to $456,050. The July total was $37,850, and included one new residence, an addition to the elementary school and additions to several homes and two businesses.

Permits issued include:

Canyon Elementary School, library addition, $14,000, July 2.

John Whinnery, 2406 Ninth Avenue, reidence, $12,000, July 3.

Craig Johnson, 2408 Sixth Avenue, addition, $1500, July 10.

R. E. Rogers, 1209 Ninth Avenue, bathroom, $200, July 16.

A. G. Phillips, 2000 Fourth Avenue, garage addition, $50, July 17.

C. M. Lippery, 611 Fifth Avenue, addition, $1400, July 20.

J. T. Gillham, 2204 Fifth Avenue, addition to Randall Motors, $8500, July 24.

Henscheid's Feed and Farm Store, 1712 Fifth Avenue, storeroom, $200, July 25.

Shower Dumps .59 Moisture Monday

A sudden shower the middle of Monday afternoon dumped .59 of an inch of rain in Canyon. The fall was heavier just to the west, while some hail was reported in the Palo Duro Canyon area.

Vote Tuesday!

City of Canyon, Texas

Bond Election

August 20, 197

PROPOSITION NO. 1

☐ **FOR THE ISSUANCE OF WATERWORKS SYSTEM TAX BONDS**

☐ **AGAINST THE ISSUANCE OF WATERWORKS SYSTEM TAX BONDS**

PROPOSITION NO. 2

☐ **FOR THE ISSUANCE OF BONDS FOR WATERWORKS PURPOSES AND PLEDGING REVENUES OF THE WATERWORKS AND SEWER SYSTEMS FOR THE PAYMENT THEREOF**

☐ **AGAINST THE ISSUANCE OF BONDS FOR WATERWORKS PURPOSES AND PLEDGING REVENUES OF THE WATERWORKS AND SEWER SYSTEMS FOR THE PAYMENT THEREOF**

☆ ☆ ☆

Voters may approve either or both of the two propositions listed on the ballot for the city bond election Tuesday by checking the statements they favor or scratching the statements they oppose. The first proposition is for the issuance of $125,000 in tax bonds to purchase water rights to the Mack Forrester land and pay exploration and testing costs. The second proposition is for the issuance of $525,000 in revenue bonds to develop the Forrester land and bring the water to the city. None of the money will be used for sewer work, the city commission has stated. The ballot is the form approved by the attorney general.

Little League Play Continues Next Week With Rained Out Games Set

With the final game of the Randall County Little League schedule rained out Tuesday night, play in the league will continue through next week.

At the end of the last game played Monday night, between the Braves and the Redlegs, the Redlegs are in first place for the last half of the season with five wins and two losses.

In second place are the Yankees with three wins and three losses, and the Dodgers are in third with three wins and four losses. The Braves have three wins and five losses.

Games in the past week were Redlegs 10, Dodgers 7 on Thursday; Braves 13, Yankees 9 on Saturday; and Braves 7, Redlegs 2 on Monday.

Rained-out games will be played Thursday, Monday, Tuesday and Thursday week. Scheduled are Dodgers vs Redlegs Thursday; Yankees vs Braves Monday, Yankees vs Redlegs Tuesday and Dodgers vs Yankees Thursday week.

The Yankees and Redlegs tied for first place in the first half of the schedule. No plans have been made for any playoff games to decide a winner for the season, according to League President Bud Parker.

CONCERT ENDS MUSIC CAMP

A "grand finale" concert and program by three bands, a choir, and twirlers, will wind up the two-week West Texas Music Camp here at West Texas State College Friday night. The public is invited.

The program will start at 7:30 p. m. and will be in Buffalo Stadium. It will feature the Camp Choir, conducted by L. N. Perkins of Oklahoma State University; the Junior High Band, directed by Dr. Joe Haddon of Midland; the Concert Band, directed by Jack Lee of Arizona University; the Symphonic Band, directed by Harold Bachman of the University of Florida; and twirlers instructed by Sonie Rogers of Western Michigan College, and Mrs. Ann Dorris Maxwell of Dumas.

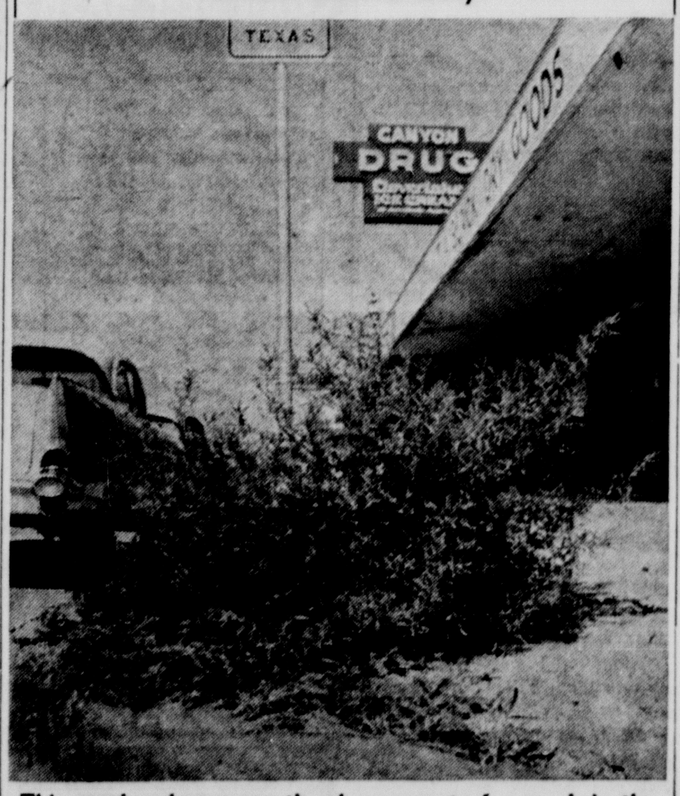
The twirling exhibitions will feature elementary, intermediate and advanced twirlers, and a special performance by Miss Rogers.

A concert featuring more than 60 West Texas Music Camp students will be presented Wednesday at 8 p. m. in Buffalo Stadium at West Texas State College.

Featuring brass and woodwind solos and ensembles, the program will present a wide variety of music. The students have been instructed by David Kaplan and William O. Latson, WT instructors, and several WT students.

Mr. and Mrs. Murray Boston were visitors Sunday in the home of their son and daughter-in-law, Mr. and Mrs. Bill Boston, in Lubbock.

Clean Little City



This weed and some goatheads grew out of a crack in the sidewalk at the corner of Fourth Avenue and 16th Street for more than a week before someone noticed them and pulled them up.

Absentee Voting Ends Saturday; Voting Place Will Be in City Hall

Polls will open at 8 a. m. Tuesday in the city hall for the second water bond election called this summer. The election Tuesday will be for the issuance of $125,000 in tax bonds and $525,000 in revenue bonds to expand the city water system. The ballot, shown elsewhere on this page, allows voters to favor either or both of two propositions. The first will be to issue $125,000 in tax bonds, which will be used to purchase water rights to four sections of land west of Canyon, which belong to Mack Forrester of Amarillo.

☆ ☆ ☆

The second proposition will be to issue $525,000 in revenue bonds to develop the waterfield and tie it into the city system. Voters may favor either of the propositions, or may vote for both.

Those who may vote in the election are residents of Canyon who have either a valid poll tax receipt or exemption and who have rendered property for taxation. The property may be either real or personal. The polls will close at 7 p. m.

Absentee balloting in the election began last Saturday and will continue until this Saturday. Voters may cast absentee ballots by obtaining them from the city hall.

This election was called by the city commission after they were presented with a petition favoring the election which was signed by 198 voters. The petition was circulated by the chamber of commerce following a study of the city's water problem by a citizen's committee composed of S. B. Orton, W. A. Warren, Dr. R. A. Neblett, Dr. J. A. Hill and Levi Cole.

The committee studied several proposals for obtaining more water for Canyon and suggested that the water rights to the Forrester land be purchased if tests show sufficient water is available there.

Three test wells were drilled on the Forrester land and were pumped for 120 hours. The tests, which showed that all three of the wells could produce approximately 1100 gallons per minute at 1700 revolutions, indicated that the supply was higher. While the tests were underway, the wells strengthened.

The committee also suggested that the city attempt to find water near the west city limits in order to provide a temporary source. Two test holes were drilled, but neither was strong enough to provide a source of municipal water, according to the engineer's report.

The search for a new water field began last summer when the present field began failing. The city attempted to purchase land north of Canyon, but found that the cost would be prohibitive and that the water is failing in some places.

The city obtained an option on the Forrester land which runs out in October. The cost of the water rights to the four sections will be $50 an acre for three of the sections and $10 for the fourth.

If the second proposal passes, the $525,000 will be used to install three municipal wells on the land at an estimated $13,500 each; install 4000 feet of eight-inch gathering pipeline at an estimated $12,200; move the Santa Fe tank to the water field and revamp it at an estimated cost of $5000; and install 74,300 feet of 16-inch transmission line at $393,790.

The remainder of the issue is split in this manner: $27,089 for engineering fees; $2372 for bond company commission; $105 for advertising; and approximately $44,000 which is a contingency fund set aside to handle any price increases in materials, errors in estimates, etc. If it is not needed, the $44,000 will not be spent.

The two proposals have been endorsed by the chamber of commerce. Chamber President Delbert Lowes has cautioned that voters should not believe statements made in unsigned letters or circulars.

He said that anyone who desires information on the issues or wishes to ask a question should call the chamber office. An attempt will be made to answer all questions, he said.

Anyone who needs transportation to the polls Tuesday may obtain a ride by calling the chamber office.

Edgetown HD Club Social Is Canceled

The Edgetown Home Demonstration Club ice cream social scheduled Aug. 23 at Conner Park has been canceled according to Mrs. K. E. Hines, president.

Mr. and Mrs. John Petry of Abilene and Mr. and Mrs. Johnny George of Borger were weekend visitors in the A. M. Cunningham home.

Mr. and Mrs. Lee Bailey of Norman, Okla., are visiting their parents, Mrs. Mary Bailey and Mr. and Mrs. C. S. Devenport, and other relatives.

Amarillo Offers Fire Contract to Randall

Further discussion of a proposed contract between Randall County and the City of Amarillo is planned by the county commissioners.

The contract, for fire service outside the city limits of Amarillo in Randall County, was presented to the court by Amarillo Assistant City Manager Leland Nelson and Fire Chief Roy Hill. It is the same contract recently signed by Potter County.

Terms of the contract are that Amarillo will furnish fire fighting equipment anywhere in a radius of 15 miles from the Potter County courthouse, the county will pay for the service at the rate of $25 for the first five miles and $5 per mile thereafter, the county will not have to pay the charges in case the Amarillo department is called to help another city or town in the county, and the county assumes liability when the equipment is outside the city limits on a county call.

Randall County now has a contract with the Canyon Volunteer Department in which the county furnishes a fire truck and pays the department $1 per man per fire call outside the city limits. The cost per fire call usually runs less than $25.

Chief Hill said his department has made 10 calls outside Amarillo in Randall County during the past year. He said he is now using the procedure of calling the Canyon department when he sends one of his units outside the city into Randall County, thus giving the service of the Amarillo and Canyon departments.

Chief Hill said one of the reasons he notifies the Canyon department is that his trucks do not carry enough water to "really fight country fires." He said his trucks carry 120 to 300 gallons of water, while the Randall County truck has 500 gallons.

Nelson told the commissioners the contract had originally been for $50 for the first five miles, but the Potter County commissioners had been unable to pay that much because the budget had already been set up. He said the contract would be reopened next year before budget time and "next year, we'll know more what is needed."

The commissioners noted that it might not be a good idea to have different contracts between the county and the Canyon and Amarillo departments, but put off making a decision until the matter could be discussed further.

Perform Your Duty Tuesday

Come Tuesday, 1300 or 1400 Canyon citizens have one duty they should be careful to perform. Tuesday is the day they should troop to the city hall to vote in the water bond election.

Every resident who has a valid poll tax receipt or an exemption and who has either real or personal property rendered to the city for taxation is eligible to vote. Any who don't aren't worthy of the title of citizen.

The water bond election is a simple matter, although many have tried to make it sound awfully complicated. There are three decisions to make, and only three.

The first is whether or not Canyon needs more water. We maintain that this question really does not need to be asked or answered—it is self evident that the people of Canyon would use more water than the city can produce, if they could.

The second question is whether or not the city should buy the water rights to the Mack Forrester land west of town. There has been ample evidence of an extremely large amount of water on the land, and ownership of the water rights is a good investment in the future of the city, we believe.

The third question is whether or not the city should raise money by issuing revenue bonds to drill wells on the Forrester land and build a pipeline into the city so we can start using that water as soon as possible.

(As anyone can see, it would be stupid to vote for the developing the Forrester field and vote against purchasing it, however, a voter can mark his ballot that way. A voter can also vote for buying the water rights and against developing them at this time.)

As a matter of editorial policy, we urge every eligible voter to cast his ballot next Tuesday. But as a matter of both personal and editorial preference, we urge every eligible voter to vote FOR both propositions on the ballot.

We feel that if Canyon does not secure a good water supply soon, the effects of our present shortage can become serious. We in Canyon have been extremely lucky all summer.

While using water right down to the last couple of hundred-thousand gallons of production, we have not had a serious fire that would take great amounts of water to fight. And by the same token, none of the pumps and motors have gone out. This is for sure: If any one of the heavy-consumption day, we in the city motors or pumps breaks down on a would be short of water until it was fixed.

We have heard some of the older people in Canyon talk against the water bond proposals on the grounds that the "young folks should do it." They've said, "Why don't they wait until we are gone, and then take care of the water. Why should we pay for it?"

The younger people in Canyon will pay for the bond election Tuesday, whether it passes or not. If it passes, repayment of the bonds issued will fall on the younger citizens, since the bonds will be long-term and will be scheduled for 20 and 30-year payoffs. If the election does not pass, the younger people of the town will pay for it through the economic difficulties that come from living in a town that does not have enough water.

Be sure to make your decision Tuesday on the issue at hand, and don't confuse yourself by bringing personalities into the picture. There are only three simple decisions to make—1. Do we need water; 2. Should we buy the Forrester water rights; and 3. Should we develop the Forrester water.

Be sure to vote Tuesday. Polls open at 8 a. m. and close at 7 p. m. in the city hall.

A Word on the Ballot

The ballot to be used Tuesday in the water bond election is not a good ballot in our opinion, because it is not self explanatory. But it is the ballot that must be used, because it is the ballot approved by the state attorney general.

The first proposition on the ballot allows voters to decide "for" or "against" the issuance of tax bonds for improvement of the water works system. It doesn't state how much the bonds will be for, nor what the money will be used for.

The city commission, in the election order, says the tax bonds that will be issued will be for $125,000. In explanation, the commission has said the money will be used to purchase water rights and pay for exploration and testing costs already incurred.

The second proposition on the ballot allows voters to decide "for" or "against" the issuance of water and sewer revenue bonds for improvement of the water works system. It does not show how much or what for, either.

In the election order, the commission said the revenue bonds will be for $525,000. The commission has also explained that the money will be used to develop the Forrester land and tie the water into the city's system. They have also explained that none of the money will be used for sewer purposes, although the ballot states "water and sewer" revenue bonds. The commission said the wording is required by the attorney general.

Voters can approve both of the propositions by scratching out the statements that begin with the word "AGAINST." The opposite is true, also.

It Doesn't Add

An Associated Press article dated Saturday says that a presidential committee has suggested that parents of college students be given income tax help toward meeting the soaring costs of higher education. In the same article, the committee suggests a federally supported experimental work-study program and the future possibility of federal scholarships.

Pardon us, but those last two just will not add together and come up with the first. No matter how you squeeze it, two added to two will not come out three.

If the federal government gives tax relief, it must either cut its expenditures or gouge another taxpayer more heavily.

If the federal government puts up money for a program of work-study, because fewer jobs are available for college students, it must have more money than it now has. If the federal government puts up money for scholarships, it must have more money.

The way for a government to get more money is for it to raise taxes, not cut them. Two plus two must equal four in the field of spending and earning.

We feel that the best help the federal government could give education across the nation is an across-the-board cut in taxes and expenditures—so that we the people would have more money on hand to help ourselves.

What Our Neighbors Say . . .

Scissor Snippings

Betty Williams in the Lamb County Leader (Littlefield): "Following the city council meeting last Thursday night, the three City Dads were kidding one another about their new cars.

"Bob Cox and Ellis Foust are both driving handsome new cars . . . and they were chiding Clint Griffin about being too 'conservative' to buy one.

"That reminded Bill Street of a 'classic' car trade made by Clint and Mid Seale, a former Littlefield business man who was also noted for being on the conservative side.

"According to Bill, they haggled for days. Finally it got to such a fine point that Seale agreed to the trade on one condition. He had just changed his oil and he insisted that Clint let him drain out the new oil.

"Clint agreed.

"Ellis, who is also noted for being a good trader, told about the time he went to Lubbock to buy a new Oldsmobile. . . and ended up buying an Oldsmobile agency for Littlefield . . . just so he could get his car at wholesale.

"Clint also owned a couple of car agencies here during the depression. In fact, he sold the Ford agency to Mancil Hall in 1935.

"Clint told what lengths they would go to sell a car in those days. They traded for almost anything . . . including horses and feed. He mentioned the time he sold a car to the late Sid Pace for maize at $8 a ton."

☆ ☆ ☆

Paul Loftin in the Panhandle Herald: "Frank Grisham swears that the following story is true: A pious, but cranky, old lady was put out because her neighbors did not invite her to a church picnic. When the day of the event arrived, one of the more tolerant neighbors called to ask if she would still like to go along. She replied, 'It's too late. I've already prayed for rain'."

☆ ☆ ☆

Jeanne Graham in the State Line Tribune (Farwell): "It never fails department—Why is it?

"When the water is just hot enough to draw for your dish water, all the kids want a drink?

"When you have 29 people lined up for a picture, the bulb won't go off?

"When your house is unbelievably mussed, that meticulous friend that you haven't seen in years happens to visit you?

"The young ones never get sleepy and take their afternoon naps at the same time?"

I GIVE YOU TEXAS

By BOYCE HOUSE

We moved away when I was little from the town in Arkansas where I was born. After I had grown up, I returned to edit the paper. J. P. Potter, who was in the drug business, had been justice of the peace and had performed the marriage ceremony for my parents. When I moved back to Piggott, he said, "I want you to have Sunday dinner with me" but he didn't name a day. Several weeks later, he said, "Next Sunday will be the fifth Sunday in February and I want you to come to dinner then and you will always remember what day it was that you had dinner at my home." And I do—Feb. 29, 1920. A fifth Sunday in February comes once in about 28 years.

Uncle Jasper declared: "Whenever I read about a preacher leaving the ministry to go into the real estate or some other business, I doubt that he was ever called to preach in the first place but just took it up until something more attractive turned up."

When Sam Houston concluded his speech before Congress when the matter of censuring him for caning a Congressman was pending, he was greeted by the foremost actor of the day, Junius Brutus Booth, with, "I yield my laurels to you."

Samuel Goldwyn, the movie producer, whose quaint expressions are almost as widely quoted as stories about Mae West used to be, is credited with having declared, concerning some proposition, "In two words—'im-possible'."

Back in the mid-twenties when Eastland County political campaigns were really exciting, Elzo Been was running for district judge. Been had lived in the county all his life. His opponent had come there just a few years before, drawn by the oil boom. Been had gone to school, or taught school, or picked cotton in just about every rural box in the county. One morning, someone asked the other candidate, "How did you come out last night?" He replied, "Not so well—we spoke in another one of Elzo's birthplaces."

It is hardly necessary to add that Been was elected.

Slack Family Has Reunion Recently

On July 28, the family of Mrs. T. V. Slack held a reunion in Thompson Park, Amarillo.

Those attending were Mrs. Slack and Maj. and Mrs. W. L. Lockhart, who were enroute from Honolulu, Hawaii, to Montgomery, Ala.; Mr. and Mrs. Herbert Slack, Jane and Mary Anne of Tucumcari, N. M.; Mr. and Mrs. Tom Slack, Sydney, Sherry and Phillip of Perryton; Mr. and Mrs. Louie Bonds, Loretta, Nancy and Van.

Mr. and Mrs. Dean Phillips and Doug of Tulia; Mr. and Mrs. Herschel Coffee and Nelda; Mr. and Mrs. C. E. Thompson, Gail and Harold; Mr. and Mrs. James Jennings, Sally and James Thomas.

Unable to attend were the Joe Slack family of Archer City, the Bobby Blacks, and Florence Marie Coffee of Durham, N. C.

Announce Three New Appointments

Three new instructors in three departments at West Texas State College have been appointed for the 1957-58 school year, according to President James P. Cornette.

They are Katherine Powers, instructor in English, Harold W. Peterson, instructor in chemistry, and John E. Walton, instructor in economics. All assume duties Sept. 1.

Miss Powers, whose home is Kingsport, Tenn., attended Mitchell Junior College in North Carolina and Emory & Henry College in Virginia, before going to George Peabody College for Teachers. There she earned both her B.S. and M.A. degrees.

Miss Powers also holds the A.B. degree in library science from Emory University. She has taught in public schools, was a librarian at Emory and South Georgia College, and was a teaching fellow in English at Peabody. She is a member of the American Association of University Women.

Peterson, who graduated from Denver City High School and later taught there, earned his B.A. degree in chemistry from North Texas State College. He will receive his master's degree from NTSC in August.

The new chemistry instructor served in the Air Force from 1946 to 1949. His wife also holds the B.A. in chemistry from NTSC.

Walton, who will also teach a course in Economic Development of the United States at the Amarillo Center this fall, is a native of Denver, where he was graduated from North Denver High School.

He earned his B.A. and M.A. degrees with majors in political science and economics. He served two years, 1945-46 in the Navy and during the Korean conflict, he served two years in the Army.

During 1956-57, while working toward his M.A. degree, Walton has been an instructor in economics at Colorado. He is married and has an infant daughter.

Highlights and Sidelights From Your State CAPITOL

By VERN SANFORD
Texas Press Association

Labor unions in Texas now are welded into one 300,000-member organization. The mammoth merger was accomplished at a joint AFL-CIO convention in this Capitol City.

Sharp internal disagreements heartened those who fear the potential political power of such a massive group.

A resolution, recommended by labor's Civil Rights committee, condemned the 55th Legislature for passing "immoral and undemocratic" laws concerning school segregation. Gulf Coast delegates balked. Finally, the convention compromised by adopting the national AFL-CIO civil rights plank, worded in a more general language.

Delegates also criticized Texas' daily newspapers; the Texas Tech Board of Directors; the Republican Party; and highway contractors.

Endorsed were a state income tax on corporations; an increase in individual income tax exemptions; federal aid for school construction; higher pay for teachers; and honesty among union officials.

AFLman Jerry Holleman was elected president. CIOer Fred Schmidt was chosen as secretary-treasurer.

Lobby Curb Proposed

With legislative opposition to the special session weakening under Gov. Price Daniel's determined stand, attention now turns toward what the lawmakers might enact.

Sen. Henry B. Gonzalez of San Antonio has drafted a strict lobby control measure. It is patterned after the Federal Law. It would require registration of all persons seeking to influence legislation, for pay. Also it calls for a detailed accounting of money used to influence legislation . . . where it comes from, how it is spent.

It would hang a heavy sword over the head of any lawmaker or lobbyist found guilty of a bribe arrangement. Penalty up to a $25,000 fine and 10 years imprisonment. Corporations involved would lose the right to do business in Texas.

Sales Surge Seen

Experts foresee a "slow but strong upturn" of production and marketing in Texas for the last quarter of the year.

It might even break last year's record, despite the restrictions on credit. So states the UT Bureau of Business Research. June retail sales dropped five per cent from May. But totals for January-June, 1957, were two per cent above 1956.

Employment To Climb

More jobs, better pay, is the outlook for Texas workers.

Texas Employment Commission forecasts a small rise in job-holders during August, followed by the usual steep jump from increased activities in September.

Construction Up

Construction authorized in Texas for the first half of 1957 is five per cent higher than for 1956, according to the UT Bureau of Business Research.

Foremost among the cities making gains were Midland, Houston, Amarillo, Lubbock, Fort Worth, El Paso and Odessa.

Letter from Washington

The Senate has passed the so-called civil rights bill. And in so doing, it has justified the faith of the American people in its ability to handle issues on the merits—and not just on the politics.

As the bill came to the Senate, it was a confused mixture of vague ideas and bitter desires to "punish" the South. It was sectional legislation—an effort to gang up on one part of the country.

It revived long dead Reconstruction statutes.

It authorized the use of troops to enforce "civil rights."

It threatened to deprive men accused of crimes of the right to a jury trial.

The Senate refused to be stampeded. It insisted on going over the bill line by line; page by page. The debate did not split on sectional lines. Senators examined the measure as serious men seeking to solve a serious problem.

Senator Anderson, of New Mexico, and Senator Aiken, of Vermont, took the lead in knocking out the reconstruction statutes. Senator O'Mahoney, of Wyoming, insisted that the jury trial was too vital a right to be by-passed.

One of the most effective jury trial speeches was made by Senator Pastore, of Rhode Island. Senator Mansfield, of Montana, took a firm stand against the Reconstruction statutes.

Americans should always be grateful to these men. They are dedicated to the cause of civil rights. But they do not believe that legislation should be designed to punish one section of the country. They do not believe that any right—civil or otherwise—can be advanced by sacrificing other rights—like the jury trial.

The bill in its final form represented reasonable legislation. It was national—rather than sectional—legislation. It disappointed the more ardent "civil rights" partisans. But reasonable men recognized it for what it was—effective, enforceable legislation that honorable men could support.

And its enforcement provisions applied only to the right to vote. Texans have never feared the right to vote. Therefore, I supported the bill.

CAUTIONS

"Sandy McWadd is nearly dead for sleep."

"What's the matter—insomnia?"

"No, the last time he went to sleep he woke up just as he was preparing to give his money away. He's afraid he won't wake up in time the next time."

Don't Let Them Take It Away!

Fire, windstorm . . . an explosion can rob you of the home you've worked so hard to own if your insurance isn't adequate. Why take a chance when this protection is so inexpensive? See us!

Everything's Big except the price

The new kind of Ford looks big because it is big . . . and it acts as big as it looks!

No matter *how* you measure the new kind of Ford, it comes out BIG! Not only is it the *longest* sedan of the low-price three . . . it's longer even than some medium-priced cars. And no other car in Ford's field can match its performance!

Styled to stay in style. Measure Ford's exclusive "Sculptured Look" against cars costing hundreds more. You'll see that Ford is *years* ahead . . . with styling that makes it unnecessary to pay more.

Built to stay built. Try Ford's "big-car" ride, and you know why Ford makes luxury a low-price word. With new suspension, new frame and body, you'll wonder where the road bumps went!

There's a great deal waiting in the new kind of FORD

Series of Prenuptial Courtesies Honoring Martha Quillen Are Given

A number of prenuptial courtesies complimenting Martha Quillen, who is to become the bride of Billy Dean Harmon of Matador Saturday have been given recently.

The first of the courtesies was given July 11 in the home of Mrs. A. B. Holt. Hostesses assisting Mrs. Holt were Mrs. George Dudley Moore Sr., Mrs. A. M. Cunningham, Mrs. O. L. Coleman, Mrs. Iverson Leake, Mrs. Frank R. Phillips, Mrs. Kelly McGehee, Mrs. Floyd Moore, Mrs. C. F. Rogers, Mrs. L. K. Bolton, Mrs. A. C. Adcock, Mrs. L. E. Gum and Mrs. James Jennings.

Registering the 79 guests who attended were Mrs. Dick Dawdy, Mrs. A. C. Wimberly and Nancy Adcock. Lynn Atkinson assisted the bride-elect with opening the gifts.

The serving table, laid with a white, linen, hand-drawn cloth, was centered with a miniature bride and bridegroom surrounded by pink asters and white daisies. Presiding at the crystal punch bowl were Mrs. James Hoffman, Bette McGehee and Mrs. T. H. Knighton of Corpus Christi.

Mrs. Burney Slack was hostess for a coffee honoring Miss Quillen on July 27.

The 80 guests were served by Mrs. Iverson Leake, Mrs. A. B. Holt and Mrs. Lee Johnson at a table laid with an imported lace and linen cloth centered with pink carnations and sweetheart roses. Silver service was used.

At the bride's book were Virginia Leake and Nancy Adcock. Hostesses were Mrs. Cecil Simms, Mrs. Faye Cannedy, Mrs. Charles Harter, Mrs. E. M. Boston, Mrs. Frank Hix, Mrs. Claude Moore, Mrs. Otto Samuelson, and Mrs. Slack.

The hostesses' gift was a silver tray.

Saturday afternoon, the bride-elect was the honoree at a personal shower given in the home of Mrs. L. K. Bolton.

Hostesses for this courtesy were Mrs. Dick Dawdy, Mrs. Guy Hamblen, Mrs. R. A. Burgess, Nancy Adcock, Peggy Sheets, Mrs. A. C. Wimberly and Mrs. James Hoffman.

A large, open pink parasol of net and nylon with the gifts from the 22 guests who attended beneath was the center of interest at the serving table laid with a lace cloth. Pink punch, cakes and ribbon sandwiches were served.

Saturday evening, a dinner honoring the bride-elect and her fiance was held at Dresden Inn in Amarillo. Ten couples were seated including the honorees and Mr. and Mrs. Lorenzo Wirt, parents of the bride-elect.

Each of the tables was decorated with a miniature bride and bridegroom. The hosts, Mr. and Mrs. A. B. Holt, Mr. and Mrs. Walter Graham and Mr. and Mrs. Nolon Henson, presented the couple with a pair of pink embroidered sheets and pillow cases.

An informal party for Miss Quillen and her girl friends was given Monday evening at the home of Hattie Anderson.

Hostesses were Mrs. Mitchell Jones, Mrs. Andy Walsh and Betty Jo Combs. Pink and white daisies centered the table, which was laid with a lace cloth. Sixteen girls were served punch from a crystal punch bowl.

Fairview Breezes

Our revival will close Sunday evening. We have been enjoying some fine messages by the Rev. Perdne.

Mrs. Jack Sutton and Charlene are visiting relatives in Kansas.

The Oscar Reads have recently purchased a house in Happy and plan to move soon.

Mr. and Mrs. Woodrow Kibby and daughters are planning to move to California some time in the near future. They live in Dallas. Mrs. Kibby is the former Geneva Read.

Mrs. Ora Evans visited Thursday in the J. W. Wesley and Serena Bryan homes.

Word has been received here that Mrs. Wayne Wesley underwent surgery in a Levelland hospital recently. Mrs. Wesley will be remembered here as Clemma Belle James.

We were glad to have Brother Perdne's brother and family from Kress at services Wednesday evening.

Brother Perdne's wife and daughter and her family were welcomed to church services Friday evening.

Lavena Amerson has been caring for her sister, Laverne Cagle, since Thursday.

Mr. and Mrs. G. E. Wesley and Lavena Amerson plan a trip to the mountains soon to enjoy fishing.

Mr. and Mrs. J. W. Wesley, Nan Earlye and Mr. and Mrs. G. E. Wesley were all in Canyon Tuesday.

Mr. and Mrs. Michael Durcos and boys, Mike and John Lee, visited her brother, John Patterson, from Wednesday until Friday. Mrs. Durcos will be remembered as Maria Patterson.

Mr. and Mrs. Durcos and boys, Mr. and Mrs. John Patterson and Pat visited Thursday evening with Mr. and Mrs. Woodrow Wesley.

C. R. Wesley has been visiting this week with Bob Barnard west of Amarillo.

Warning ladies. If you care anything for your husbands, don't have them help you wax floor. A very good friend of ours was being Helpful Henry and helping his wife remove the old wax. He fell and broke his arm.

The H. H. Shipman family attended the Moore reunion in Lubbock Sunday.

Mr. and Mrs. E. W. Schaeffer, Mr. and Mrs. Melvin Svchaeffer, Sherryl Ann and Milton and Mr. Mrs. Raford Shipman, Jannis, Emil Ross and Pam attended the White reunion in Plainview Sunday.

We received about ½ inch rain Saturday evening.

Mr. and Mrs. G. E. Wesley and Lavena Amerson attended the Amerson reunion in Elwood Park Sunday in Amarillo.

Practice Makes Perfect

Hours of marching up and down, turning left and right, and reversing directions is needed to turn a girl from a girl to a majorette.

Priscilla Club Met With Mrs. Flesher

The Priscilla Club met Aug. 7 in the home of Mrs. Charles Flesher. Assisted by her daughter, Mrs. Bill Russell, of Amarillo, Mrs. Flesher served ice cream, cake and coffee to guests, Mrs. Cas Jennings and Mrs. Grady Oldham of Wichita Falls, house guest of Mrs. Ray McReynolds, and members, Mrs. McReynolds, Mrs. C. M. Dowlen, Mrs. Ernest Brown, Mrs. Ruth Perrin, Mrs. R. A. Hodges, Mrs. T. S. Stevenson Sr., Mrs. E. D. Walker, Mrs. Alfred Bellah, Mrs. I. F. SoRelle, Mrs. J. M. Daugherty.

Garden flowers were used as decoration throughout the house.

Leonard Winters Return from Trip

The Leonard Winters and Mrs. Winter's mother, Mrs. Finley, have returned from a 16-day vacation during which time they visited friends and relatives in Los Angeles, San Diego, Covina, Sun Valley and Sepulida, Calif.

Mrs. Winters reported fishing, swimming, viewing "The Ten Commandments" and "Seven Wonders of the World," and visits to the San Diego zoo and China Town among their activities in California.

Las Amigas HD Has Dutch Maid Party

The Las Amigas Home Demonstration Club held a combination business meeting and Dutch Maid party July 26 in the home of Mrs. Don Olson. Mrs. Wayne Griffin was in charge of the Dutch Maid party, proceeds from which went to the club.

Refreshments were served to members and visitors, Mrs. Griffin and Mrs. Pat Henderson.

Mr. and Mrs. J. C. Chiddix of Roosevelt, Okla., visited last week their daughter and her family, Mrs. Iris Gazzaway and daughter, Linda. Mrs. Iris Gazzaway and Linda spent Sunday in Farwell with Mr. and Mrs. Dave Gazzaway and family. Dave is Mrs. Gazzaway's son.

Dee and Leroy Lowry of Lubbock spent last Saturday with their mother, Mrs. R. D. Lowry.

Shower, Coffee Honor Bride-Elect

Two prenuptial courtesies last week honored Bette McGehee, bride-elect of Mark L. Morris Jr. of Topeka, Kan. The couple is to exchange wedding vows Aug. 17 in the First Methodist Church.

The first of a series of courtesies for Miss McGehee was held Aug. 6 in the home of Mrs. E. J. Cundiff.

Hostesses for the miscellaneous shower were Mrs. Jack Foster, Mrs. Melton McGehee and Mr. Lee Roy Roberts of Wayside and Mrs. Gus Miller, Mrs. Irving SoRelle, Mrs. Jack Taylor, Mrs. Bailie McCormick, Mrs. Otto Samuelson, Mrs. Art Roberts, and Mrs. Cundiff.

Guests were greeted by Mrs. Cundiff, Miss McGehee and Mrs. Kelly McGehee, mother of the bride-elect.

Laid with a floor length cloth of white organdy and linen, the serving table was centered with an arrangement of aqua lace carnations featuring a white lace and net parasol from which extended aqua satin streamers and tufts of white tulle tied in love knots. The centerpiece was flanked by Dresden candelabra decorated with miniature cupids.

Presiding at the table were Mrs. J. J. Walker and Mrs. C. A. Murray.

Mrs. James Scott registered the guests, and musical selections during the receiving hours were played by Dorothy Neblett, Janet Taylor and Virginia Leake.

Eighty guests attended.

The morning of Aug. 7, a coffee honoring Miss McGehee was given in the home of Mrs. Floyd Tomlinson.

Hostesses for this courtesy were Mrs. Walter Graham, Mrs. Lorenzo Wirt, Mrs. Tomlinson, Mrs. Glenn Dowlen and Mrs. J. J. Walker.

In the receiving line were Mrs. Tomlinson, the honoree and Mrs. McGehee. Guests were registered by Nancy McCormick and Nancy Kay Tomlinson. Musical selections were played by Miss Tomlinson and Ann Moore.

The serving table, laid with an off-white, linen, cutwork cloth, featured a pedestal arrangement of white daisies tinged with aqua. Miniature parasols in the arrangement carried out the bride's theme. Presiding at the silver service, Mrs. I. F. SoRelle and Mrs. Cundiff served approximately 50 guests.

Bouquets of garden flowers were placed throughout the entertainment rooms.

Bridal Courtesy Fetes Ann Moore

A bridal shower Aug. 8 in the home of Mrs. Iverson Leake honored Ann Moore, who is to become the bride of Larry Dean Griffin of Earth, Texas, on Aug. 30.

Guests were greeted by Mrs. Leake, the bride-elect, her mother, Mrs. Florene Moore, and the bridegroom-to-be's mother, Mrs. L. S. Griffin, of Earth.

A double-wedding ring of ruffled silver net on a base of tufted light blue net, which formed a cloud effect, was the center of interest on the refreshment table.

The arrangement, which was tied with satin ribbons inscribed with the names of the couple and the wedding date, was sprinkled with sequin stars and flanked by two miniature cupid figurines. Sprays of silver leaves completed the arrangement.

Presiding at the table, laid with a hand drawn, linen cloth with crystal candelabra and silver appointments were Mrs. J. J. Walker, Mrs. Bailie McCormick and Mrs. Gene McGlasson.

Guests were registered by Charlotte Crain, Nelda Coffee, Nancy McCormick and Virginia Leake. Musical selections were played by Diane Prichard and Janet Taylor.

An arrangement of white asters decorated the mantle of the living room, and garden flowers were used to decorate the entertainment rooms.

Hostesses for the courtesy were Mrs. L. F. Brandon, Mrs. W. R. Crow, Mrs. Newton Crain, Mrs. Lon Fanning, Mrs. Walter Graham, Mrs. M. B. Measamer, Ruth Perrin, Mrs. Grady Persons, Mrs. F. A. Pierce, Mrs. Curtis Samples, Mrs. T. S. Stevenson Jr. and Mrs. Leake.

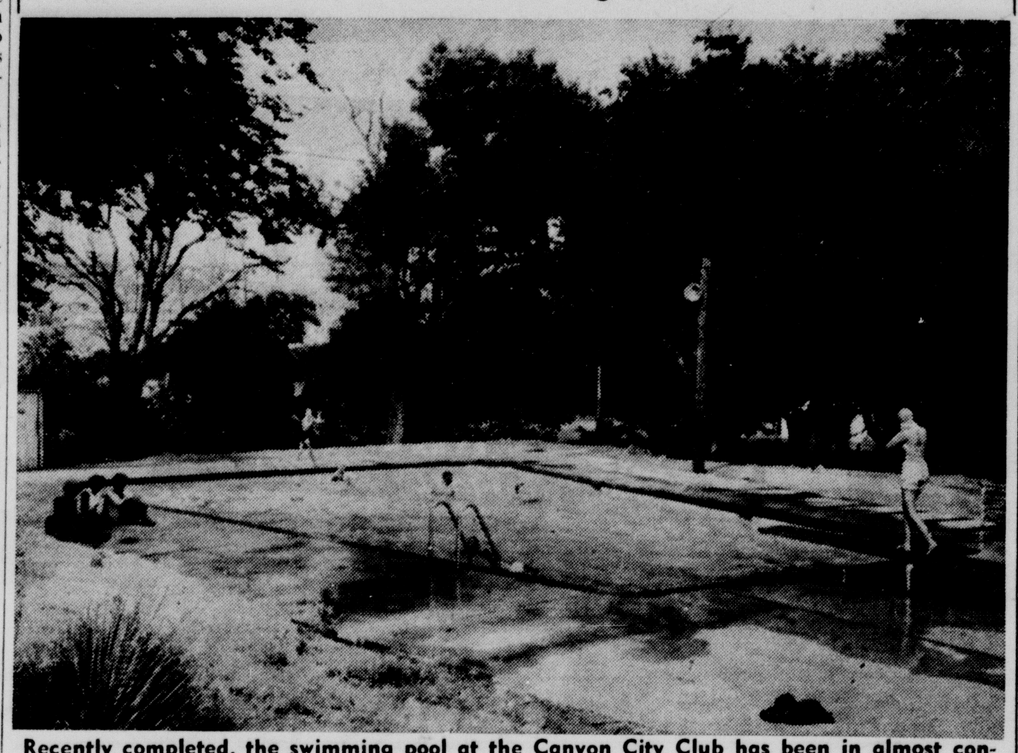
Club Swimming Pool



Recently completed, the swimming pool at the Canyon City Club has been in almost constant use lately. Set under the huge trees at the club, the pool will probably be one of the most popular spots at the club each summer.

Wayside News

The Rev. Leatherwood filled his regular appointment Sunday. His wife accompanied him, and they were dinner guests in the Melton McGehee home.

Mr. and Mrs. Leo Witkowski, Reta Sue, Lou Ann and Mrs. Bruce Fields and Vonnie from Arney were guests in the E. C. Franklin home Saturday evening. They brought ice cream and cake to surprise Mrs. Franklin on her birthday. All had a pleasant evening.

Nancy Schrib visited relatives in Lubbock last week.

Charles Kennedy, Robert and Richard, Ira Schrib, Jimmie and Ronnie Wetzel and Joe Vasquez went to the 4-H Club encampment at Carlsbad, N. M. They toured the caverns on their trip. They left home Monday morning and returned home Wednesday evening.

Janelle Shipman is visiting her cousin, Nancy Schrib, this week. Janelle lives in Lubbock.

Mr. and Mrs. Harold Franklin announce the arrival of a girl born Aug. 5 in Neblett Hospital.

Mr. and Mrs. Charles Kennedy were Amarillo and Canyon callers Thursday morning.

Mr. and Mrs. Guy Watson, Darrall and Gale spent last weekend sightseeing in Colorado.

The Rogers reunion was held at the Joe Rogers home last Sunday with about 30 in attendance.

Frances Heisler is visiting her grandparents, Mr. and Mrs. M. L. Womble, and other relatives near Fredrick, Okla.

Mr. and Mrs. Robert Adams, Jim and Less visited last Sunday in Pampa with Mrs. Adams' parents, Mr. and Mrs. William Cunningham.

Mr. and Mrs. Willie Modisette, Royce and Fay were Canyon and Amarillo callers Monday.

Mr. and Mrs. Cecil Reed, Butch, Bill and Sue are visiting Mrs. Reed's brother and family, the Billy Ray Slovers, in Denver City.

Mr. and Mrs. W. R. Stockett and Mr. and Mrs. W. R. Franklin were Canyon callers Tuesday.

Willis Fisher had surgery in Neblett Hospital Thursday. Mr. and Mrs. Bennie Newby and Mrs. Newby's mother, Mrs. S. E. Worthing, of Boyd, came to see Mr. Fisher.

Mr. and Mrs. Z. D. Starkey, Vickie and Jimmie Don of Amarillo are spending the weekend in the Cecil Reed home. Mrs. Starkey and Mrs. Reed are sisters.

Gardeners Discuss Garden Techniques

"I garden for both pleasure and profit," K. E. Hines told the Canyon Garden Club Thursday evening as he and his wife discussed vegetable gardening for the group at the home of Mrs. Jeannette Robbins.

He said gardening not only helped him relax but saved on the grocery bill and enabled the family to enjoy some vegetables not readily available in the market.

He passed on to the club some of the techniques he has found successful in gardening. Among his practices is using a moon book. He said he knew that science had not proved it accurate but that science had not disproved it and he believed in it.

The Hines said they also believe in using common remedies for garden insects rather than the new insecticides. They use household flour for squash bugs, moth balls on cucumbers and canteloupe and wood ashes for other insects.

For dusting, Hines said he preferred an old sock which enabled him to pinpoint his dust rather than get it all over the plants.

There is a sure trick for finding the right time to plant the spring garden according to the Hines. They plant six or eight beans and "they won't sprout until time to plant the spring garden," Mr. Hines said.

The formula for a good garden, Mr. Hines told the group, is to "pick a good variety, plant it right and water and take care of it."

The program chairman, Mrs. T. A. Black, distributed a list of programs and people responsible for programs for the next year. These programs are subject to change by the persons giving the program.

Vote Tuesday!

NUMBER ONE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1957.

HOUSE JOINT RESOLUTION NO. 37 proposing an amendment to Subsection (a) of Section 62, Article XVI of the Constitution of Texas, relating to establishment of a retirement, disability and death compensation fund for officers and employees of the State.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Subsection (a) of Section 62, Article XVI of the Constitution of the State of Texas be amended so as to read hereafter as follows:

"**Section 62. (a)** The Legislature shall have the authority to levy taxes to provide a State Retirement, Disability and Death Compensation Fund for the officers and employees of the State, and may make such reasonable inclusions, exclusions, or classifications of officers and employees of this State as it deems advisable. The Legislature may also include officers and employees of judicial districts of the State who are or have been compensated in whole or in part directly or indirectly by the State, and may make such other reasonable inclusions, exclusions, or classification of officers and employees of judicial districts of this State as it deems advisable. Persons participating in a retirement system created pursuant to Section 1-a of Article V of this Constitution shall not be eligible to participate in the Fund authorized in this Subsection, and persons participating in a retirement system created pursuant to Section 48-a of Article III of this Constitution shall not be eligible to participate in the Fund authorized in this Subsection except as permitted by Section 63 of Article XVI of this Constitution. Provided, however, any officer or employee of a county as provided for in Article XVI, Section 62, Subsection (b) of this Constitution, shall not be eligible to participate in the Fund authorized in this Subsection, except as otherwise provided herein. The amount contributed by the State to such Fund shall equal the amount paid for the same purpose from the income of each such person, and shall not exceed at any time five per centum (5%) of the compensation paid to each such person by the State.

"**All funds provided from the compensation of such person or by the State of Texas for such Retirement, Disability and Death Compensation Fund, as are received by the Treasury of the State of Texas, shall be invested in bonds of the United States, or in bonds issued by any agency of the United States Government, the payment of the principal of and interest on which is guaranteed by the United States; or in such other securities as are now or hereafter may be permitted by law as investments for the Permanent University Fund or for the Permanent School Fund of this State, under the same limitations and restrictions imposed by the Constitution for investment of those funds and subject to such regulations as the Legislature may provide. However, a sufficient amount of said Fund shall be kept on hand to meet the immediate payment of the amount likely to become due each year out of said Fund, such amount of funds to be kept on hand to be determined by the agency which may be provided by law to administer said Fund.**

"**Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such legislation shall not be invalid by reason of its anticipatory character.**"

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State on the first Tuesday after the first Monday in November, 1957, at which election all ballots shall have printed thereon the following:

"**FOR the Constitutional Amendment** amending Subsection (a) of Section 62, Article XVI of the State Constitution, relating to establishment of a retirement, disability and death compensation fund for officers and employees of the State."

"**AGAINST the Constitutional Amendment** amending Subsection (a) of Section 62, Article XVI of the State Constitution, relating to establishment of a retirement, disability and death compensation fund for officers and employees of the State."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said special election and this Amendment shall be published and the election held as required by the Constitution and laws of this State.

NUMBER TWO ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1957.

HOUSE JOINT RESOLUTION NO. 2 proposing an amendment to Article III, Section 51a of the Constitution of Texas, so as to increase the limit on the maximum monthly payment to needy aged persons from state funds and on the total yearly expenditure out of state funds for assistance to needy aged, needy blind, and needy children; and allocating and appropriating additional sums, supplementing current legislative appropriations, for payment of assistance grants.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 51a of Article III of the Constitution of the State of Texas be amended to read as follows:

"**Section 51a.** The Legislature shall have the power, by General Laws, to provide, subject to limitations and restrictions herein contained, and such other limitations, restrictions and regulations as may by the Legislature be deemed expedient for assistance to, and for the payment of assistance to:

"(1) Needy aged persons who are actual bona fide citizens of Texas and who are over the age of sixty-five (65) years; provided that no such assistance shall be paid to any inmate of any state-supported institution, while such inmate, or to any person who shall not have actually resided in Texas for at least five (5) years during the nine (9) years immediately preceding the application for such assistance and continuously for one (1) year immediately preceding such application, provided that the maximum payment per month from state funds shall not be more than Twenty-five Dollars ($25) per person; and provided further that no payment in excess of Twenty-one Dollars ($21) shall be paid out of state funds to an individual until and unless such additional amounts are matched by the Federal Government.

"(2) Needy blind persons who are actual bona fide citizens of Texas and are over the age of twenty-one (21) years; provided that no such assistance shall be paid to any inmate of any state supported institution, while such inmate, or to any person who shall not have actually resided in Texas at least five (5) years during the nine (9) years immediately preceding the application for such assistance and continuously for one (1) year immediately preceding such application.

"(3) Needy children who are actual bona fide citizens of Texas and are under the age of sixteen (16) years, provided that no such assistance shall be paid on account of any child over one (1) year old who has not continuously resided in Texas for one (1) year immediately preceding the application for such assistance, or on account of any child under the age of one (1) year whose mother has not continuously resided in Texas for one (1) year immediately preceding such application.

"**The Legislature shall have the authority to accept from the Federal Government of the United States such financial aid for the assistance of the needy aged, needy blind, and needy children as such Government may offer** not inconsistent with restrictions herein set forth; provided however, that the amount of such assistance out of state funds to each person assisted shall never exceed the amount so expended out of federal funds; and provided further, that the total amount of money to be expended out of **state funds for such assistance to the needy aged,** needy blind, and needy children shall never exceed the sum of Forty-seven Million Dollars ($47,000,000) per year.

"**The Legislature shall enact** appropriate laws to make lists of the recipients of aid hereunder available for inspection.

"**Supplementing legislative appropriations** for assistance payments authorized by this section, the following sums are allocated out of the Omnibus Tax Clearance Fund and are appropriated to the State Department of Public Welfare for the period beginning December 1, 1957 and ending August 31, 1959 Four Million, Nine Hundred Thousand Dollars ($4,900,000) for Old Age Assistance, One Hundred, Seventy-Five Thousand Dollars ($175,000) for Aid to the Blind, and Five Hundred, Twenty-five Thousand Dollars ($525,000) for Aid to Dependent Children Such allocations and appropriations shall be made available on the basis of equal monthly installments and other wise shall be subject to the provisions of currently existing laws making allocations and appropriations for these purposes."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of Texas at an election to be held throughout the State of Texas on the 5th day of November, 1957, at which election there shall be printed on such ballot the following clauses:

"**FOR the Constitutional Amendment** increasing the limit on the maximum monthly payment to needy aged persons from state funds from Twenty Dollars ($20) per month to Twenty-five Dollars ($25) per month subject to certain conditions for **payment in excess of Twenty-one Dollars ($21) per month** and on the total yearly expenditure out of state funds for assistance to needy aged, needy blind, and needy children from Forty-two Million Dollars ($42,000,000) per year to Forty-seven Million Dollars ($47,000,000) per year, and allocating and appropriating additional sums, supplementing current legislative appropriations, for payment of assistance grants."

"**AGAINST the Constitutional Amendment** increasing the limit on the maximum monthly payment to needy aged persons from state funds from Twenty Dollars ($20) per month to Twenty-five Dollars ($25) per month subject to certain conditions for payment in excess of Twenty-one Dollars ($21) per month and on the total yearly expenditure out of state funds for assistance to needy aged, needy blind, and needy children from Forty-two Million Dollars ($42,000,000) per year to Forty-seven Million Dollars ($47,000,000) per year, and allocating and appropriating additional sums, supplementing current legislative appropriations, for payment of assistance grants."

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published as required by the Constitution and laws of this State.

NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1957.

HOUSE JOINT RESOLUTION NO. 3 proposing an amendment to the Constitution of Texas adding a section to be known as Section 49-c of Article III, providing for the issuance and sale of bonds of the State of Texas to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas in the conservation and development of the water resources of the State; providing for the payment of such bonds; creating an agency to administer said Fund and to perform other duties prescribed by law; limiting the period during which financial assistance may be granted; and providing for the calling of an election and the publication and issuance of the proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of Texas be amended by adding a new section thereto to be known as Section 49-c, as follows:

"**Section 49-c.** There is hereby created as an agency of the State of Texas the Texas Water Development Board to exercise such powers as necessary under this provision together with such other duties and restrictions as may be prescribed by law. The qualifications, compensation, and number of members of said Board shall be determined by law. They shall be appointed by the Governor with the advice and consent of the Senate in the manner and for such terms as may be prescribed by law.

"**The Texas Water Development Board** shall have the authority to provide for, issue and sell general obligation bonds of the State of Texas in an amount not to exceed One Hundred Million Dollars ($100,000,000). The Legislature of Texas, upon two-thirds (2/3) vote of the elected Members of each House, may authorize the Board to issue additional bonds in an amount not exceeding One Hundred Million Dollars ($100,000,000). The bonds authorized herein or permitted to be authorized by the Legislature shall be called 'Texas Water Development Bonds,' shall be executed in such form, denominations and upon such terms as may be prescribed by law, provided, however, that the bonds shall not bear more than four per cent (4%) interest per annum; they may be issued in such installments as the Board finds feasible and practical in accomplishing the purpose set forth herein.

"**All moneys** received from the sale of State bonds shall be deposited in a fund hereby created in the State Treasury to be known as the Texas Water Development Fund to be administered (without further appropriation) by the Texas Water Development Board in such manner as prescribed by law.

"**Such fund** shall be used only for the purpose of aiding or making funds available upon such terms and conditions as the Legislature may prescribe, to the various political subdivisions or bodies politic and corporate of the State of Texas including river authorities, conservation and reclamation districts and districts created or organized or authorized to be created or organized under Article XVI, Section 59 or Article III, Section 52, of this Constitution, interstate compact commissions to which the State of Texas is a party and municipal corporations, in the conservation and development of the water resources of this State, including the control, storing and preservation of its **storm and flood waters and the waters of its rivers** and streams, for all useful and lawful purposes by the acquisition, improvement, extension, or construction of dams, reservoirs and other water storage projects, including any system necessary for the transportation of water from storage to points of treatment and/or distribution, including facilities for transporting water therefrom to wholesale purchasers, or for any one or more of such purposes or methods.

"**Any or all financial assistance** as provided herein shall be repaid with interest upon such terms, conditions and manner of repayment as may be provided by law.

"**While any of the bonds** authorized by this provision or while any of the bonds that may be authorized by the Legislature under this provision, or any interest on any of such bonds, is outstanding and unpaid, there is hereby appropriated out of the first moneys coming into the Treasury in each fiscal year, not otherwise appropriated by this Constitution, an amount which is sufficient to pay the principal and interest on such bonds that mature or become due during such fiscal year, less the amount in the sinking fund at the close of the prior fiscal year.

"**The Legislature** may provide for the investment of moneys available in the Texas Water Development Fund, and the interest and sinking funds established for the payment of bonds issued by the Texas Water Development Board. Income from such investment shall be used for the purposes prescribed by the Legislature. The Legislature may also make appropriations from the General Revenue Fund for paying administrative expenses of the Board.

"**From the moneys** received by the Texas Water Development Board as repayment of principal for financial assistance or as **interest thereon**, there shall be deposited in the interest and sinking fund for the bonds authorized by this Section sufficient moneys to pay the interest and principal to become due during the ensuing year and sufficient to establish and maintain a reserve in said fund equal to the average annual principal and interest requirements on all outstanding bonds issued under this Section. If any year prior to December 31, 1982 moneys are received in excess of the foregoing requirements then such excess shall be deposited to the **Texas Water Development Fund, and may be used for** administrative expenses of the Board and for the same purposes and upon the same terms and conditions prescribed for the proceeds derived from the sale of such State bonds. No grant of financial assistance shall be made under the provisions of this Section after December 31, 1982, and all moneys thereafter received as repayment of principal for financial assistance or as interest thereon shall be deposited in the interest and sinking fund for the State bonds; except that such mount as may be required to meet the administrative expenses of the Board may be annually set aside; and provided, that after all State bonds have been fully paid with interest, or after there are on deposit in the interest and sinking fund sufficient moneys to pay all future maturities of principal and interest, additional moneys so received shall be deposited to the General Revenue Fund.

"**All bonds issued hereunder** shall after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute general obligations of the State of Texas under the Constitution of Texas.

"**Should the Legislature** enact enabling laws in anticipation of the adoption of this amendment, such acts shall not be void by reason of their anticipatory nature."

Sec. 2. The foregoing amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at an election to be held on the 5th day of November, 1957, same being the 1st Tuesday after the 1st Monday in said November, 1957, at which election each ballot shall have printed thereon, the following words:

"**FOR the amendment to the Constitution** of Texas adding a new section to be known as Section 49-c of Article III, authorizing the issuance and sale of Two Hundred Million Dollars ($200,000,000) in bonds by the State of Texas to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas in the conservation and development of the water resources of the State."

"**AGAINST the amendment to the Constitution** of Texas adding a new section to be known as Section 49-c of Article III, authorizing the issuance and sale of Two Hundred Million Dollars ($200,000,000) in bonds by the State of Texas to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas in the conservation and development of the water resources of the State."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State. **The expense of publication and election for such amendment shall be paid out of the proper appropriation made by law.**

Questions and Answers on Canyon's Water Problem

OUR NEEDS

1. Do we really need water?

At the present time, the city has seven wells producing water. Until August of last year, the city was using six wells. At that time, the six wells could produce about 2.8 million gallons a day. Now, the seven wells can produce about 2.6 million gallons. On three separate days this summer, the water users in the city have used more than 2.2 million gallons. On those days, the college was asked to shut down on the use of water. When the daily use reaches 1,359,760 gallons, the city does not have adequate fire-flow reserves.

2. Do we need a short or long-range program?

We feel that a long-range program is the only good answer. If a short-range program is adopted, the citizens will be forced to go through the expense and trouble of other bond elections within a very few years. In addition, if a short-range program is adopted now, the search for an adequate waterfield a few years from now is going to be a much harder task. The Mack Forrester waterfield is the closest truly-large waterfield that could be found by both the city commission and the citizens committee.

3. Do we now have adequate water for fire protection?

The State Board of Fire Underwriters requires that a city have a certain amount of water, either stored in tanks or readily available from wells, over and above the anticipated peak demand of users. In the case of Canyon, with an estimated resident population of 5,600, the city should be able to furnish 2,356 gallons per minute for nine consecutive hours over and above the estimated 2,135 gallons per minute that constitutes how much the citizens would use if it were available. The seven city wells can pump only 1828 gallons per minute when all are running as fast as possible.

4. Surely we haven't been short of water this year with all these rains?

The maximum daily production of the city's wells is about 2.6 million gallons—2,632,320 to be more exact. Since the first of July, the people of Canyon have used more than two million gallons on 14 days. On four of those days, we used more than we did on any day in 1956. On two of those days, we used more than we did on any day in 1955. A point to remember is that on any day when we use more than 1,359,760 gallons, we do not have enough water to meet the requirements for fire protection. We have used that much or more almost every day since the middle of June.

THIS PROPOSAL FOR OUR NEEDS

1. Isn't the cost of water rights too high?

This question is one of the hardest to answer. When compared to the cost of 40 cents per gallon that the people of Dallas paid last summer for drinking water, the $50 and $10 per acre for water rights to the Mack Forrester land is extremely small. J. D. Kirkland, a veteran water driller who drilled the test wells on the Forrester land, estimated there is enough water there to provide enough for a city of 25,000 for 35 years. The water rights to the Forrester land will cost $102,400. That figures out to $18.28 per citizen of Canyon.

2. Why didn't Amarillo keep the water rights to the Forrester land when it owned them?

The city of Amarlilo purchased the water rights to the Forrester land back in the 1920's, when it began developing its water supply in Randall County. In the early 1930's, Amarillo sold that land because it did not have pipelines large enough to carry water from its developed land plus the water from the Forrester land. The history of Amarillo's ownership of the Forrester land was obtained from N. V. Moss, city manager of Amarillo.

3. How do we know water is there in any quantity?

During July, the city commission had three test wells drilled on the Forrester land—one on each of the three sections which will cost $50 an acre. The wells were pumped for 120 hours, and produced about 1100 gallons per minute each at 1700 revolutions. While the tests were conducted, the pumping level of each well rose, indicating that more water is available than was being taken by the pumps.

4. Are four sections of land too many?

In developing a long-range supply of water, the more land that can be obtained the better. This is true for two reasons. The first is that when more land is available, more wells can be drilled. The second is that the wells drilled and used by the city are protected from irrigation depletion when the city owns land in each direction from the well.

5. Isn't the engineering cost excessive?

The engineering cost will be the minimum standard set by the Texas Board of Professional Engineers. The charge will be six per cent of actual construction costs, and will be in the neighborhood of $28,000.

6. Won't these three wells require 24-hour attendants?

The city plans to use the Santa Fe storage tank at the waterfield. Electric probes will be dropped into the tank, and the transmission pipeline into town will have a valve at the pump station in town. When water is needed from the field, the valve will be opened in town and the water will flow by gravity from the tank into Canyon. When the water level drops below the electric probes, the probes will turn the Forrester wells on. When enough water has reached town to supply the need, the valve will be turned off. The wells will continue pumping until the water level in the tank reaches the probes, at which time the wells will be turned off automatically. It would probably be necessary for a man to make a trip to the wells about once a day to inspect and oil the pumps and motors.

7. How will this plan be financed?

The plan will be financed by the issuance of both tax and revenue bonds. The tax bonds, in the amount of $125,000, will be used to purchase the water rights and pay the costs of the exploration and testing. The revenue bonds, in the amount of $525,000, will be used to develop the field by drilling wells, installing a gathering system and moving the Santa Fe tank and to bring the water into town in a pipeline.

8. How is the cost divided?

The tax bonds are divided in this manner: $102,400 for purchase of the water rights and the remainder to pay for costs already incurred —the recent test wells, the 16 test holes previously drilled on the Forrester land, the test holes drilled in the west end of Canyon in a search for water, costs for options on land at the west end of Canyon.

The revenue bonds are divided in this manner:

74,300 linear feet 16" transmission line	$393,790.00
4,000 linear feet 8" collection lines	12,200.00
3 wells at $13,500	40,500.00
Moving Santa Fe tank and revamping	5,000.00
Engineering Fees	27,089.40
Bond Company commission	2,372.50
Advertising	105.12
Reserve in case of price increases, etc.	43,942.98

It should be noted that the costs for the pipeline, drilling wells and other construction costs are estimates, and are subject to being changed either up or down at the time bids are taken. The engineering fee will be six per cent of those actual construction figures. The reserve is figured to take up any slack if the estimates are low, and will not be spent if it is not needed.

9. Is the water good?

A chemical analysis of the water on the Forrester land was made by the Texas State Department of Health. The analysis compares favorably with wells already in the city's system. It has slightly less fluorides than the present water, slightly more iron, less magnesium, more bicarbonates and less chlorides. The Forrester water is not quite as hard as the present water —the present water has a total hardness of 268 parts per million and the Forrester water has a total hardness of 260 parts per million. The Forrester water has a pH factor of 7.3 while the present water has a pH factor of 7.2. The pH factor measures acidity and alkalinity, with 7.0 as neutral. Figures over 7 are alkaline while those under are acid.

10. How long will this supply be adequate?

The driller, J. D. Kirkland of Farwell, estimates that there is enough water under the Forrester land to supply a city of 25,000 for 35 years.

11. Will this plan require an increase in taxes?

It is not expected that any tax increase will come as a result of the passing of this bond issue. The city commission, while it cannot bind future commissions, does not feel a tax increase will be necessary anytime in the foreseeable future.

12. Will this mean an increase in water rates?

It is not expected that any increase will come because of the issuance of revenue bonds. The present revenue of the water department is perfectly capable of handling the retirement of the entire $650,000 issue, if it were necessary.

13. How long will it take to pay for this?

The bonds which will be issued when the election is approved are long-term bonds. The tax bonds will have a limit of 20 years while the revenue bonds will have a limit of 30 years. In the present bond market, long-term bonds carry a lower rate of interest than do short-term bonds of less than 20 years.

14. Is this a sound finance plan?

With the economy of the nation at its present level, municipal bonds are considered one of the best investments that can be made. Individuals cannot borrow money at interest rates as low as can cities. R. A. Underwood of Underwood and Company, a Dallas bonding company, told the city commission that the city's financial structure is good and bonds issued by the city would be desirable bonds for investors. Under the proposed retirement schedule, the city will not have to repay principal until outstanding bond issues are paid off, and the repayment load on the city will not become burdensome. Bond issues which are now outstanding will be completely paid off in 1973.

15. How does the cost of water pumped from these wells compare to water from present wells?

Figures published in an advertisement sponsored by the Chamber of Commerce last week show that a saving of $8,988 per year could be effected in the cost of pumping water from the Forrester wells rather than the present wells.

16. Where is the Forrester land?

The four sections belonging to Mack Forrester are sections 12, 13, 20 and 21, block 1, Tyler-Tap survey. They are located approximately eight miles west and two north of Canyon and straddle the Palo Duro Creek.

17. What will be done with the old wells?

When the new waterfield is developed, the city's water will be taken directly from the Forrester field. The old wells, which are deep and cost more money to pump, will be put on a standby reserve basis. The old wells will be allowed to rest and recharge if possible, and will be called into use only when they are needed.

OTHER POSSIBILITIES

1. Why not drill more wells close to town—north or in some other direction?

A search for water was conducted by the city commission and by the citizens committee both to the north and immediately west. The city commission found that costs of land to the north were prohibitive, and there is some question as to the extent of the water in that direction. Although some wells north of town are good producers, others close by are often failing, both the commission and the committee found. There has been talk of the availability of land to the north for a price of $250 per acre, and the city would be able to sell the land after drilling the wells, retaining the water rights. Here is a cost estimate for purchase of one section of land three miles north, developing it with three wells and bringing it to town: Land (640 acres at $250 less resale at $50 per acre) $128,000; three wells at $15,000 (the water north of town is deeper than that on the Forrester land) $45,000; three miles of 16-inch pipeline at $5.30 per foot, $85,952. This gives a total cost of $258,952, not counting the cost of an eight-inch gathering system in the field. Such a plan would give only one section of land. Using the same figures, to obtain four sections of land the city would have to pay $512,000 for land alone. Although there has been talk of the availability of land for $250 per acre, when the city tried to buy land to the north the quoted price was $300. Ray S. Daniels of Amarillo, inspector of real estate loans for Southwestern Life Insurance Company, who purchased some of the Hartley County water land for the city of Amarillo, attempted to purchase land for Canyon north of town. In a letter to the city commission, he reported: "As a result of my investigations, it is my opinion that lands lying north of the present water wells which serve the City of Canyon, would cost an average of $300 per acre or more."

2. Why not pump the well the Santa Fe gave us?

The Santa Fe well, along the right of way where the tank is located, is very near to two of the city wells and another well belonging to Southwestern Public Service Company. When all four of the wells are pumped at once, they produce no more than the two city wells pumping alone. The Santa Fe quit using the well and began purchasing water from the city several years ago.

3. Why not wait for water from the Canadian River Dam?

It is well known that it will take several years, as long as five or six years and possibly more, for the Canadian River system to be built after construction begins. At present, the CRMWA has no idea when construction might start. In addition, the latest quoted price for delivery of water to the point nearest member cities is 21 cents per thousand gallons. Present production costs for the City of Canyon are lower than that price, and it is anticipated that the cost will be even lower at the Forrester site because of the decreased need for electricity.

4. Why not buy Buffalo Lake?

Information received from both Sen. Lyndon Johnson and Rep. Walter Rogers indicates that Buffalo Lake will not be available for at least another five years, if then. Obtaining Buffalo Lake would not be the complete answer, as using water from the lake would require construction of a pipeline and a filtering system.

5. If this election fails, what are the possible effects?

A city without water is a dead city. If Canyon does not have the water it needs, the city has no future. Property values will drop to nothing, the college will cease to grow and the new highways being built will be fine arteries for people to speed through Canyon as quickly as they can.

HOW TO VOTE

1. How do I vote for both propositions?

Vote for both propositions by scratching out the statements that begin with "AGAINST" and leaving those statements which begin with "FOR."

2. Who is eligible to vote?

Those who can vote are persons with valid poll tax receipts or holders of exemptions who have rendered property, either real or personal, for city taxation and who live inside the city limits.

What Makes a Majorette

Trudging in time through the thick grass of the WT football field, these girls are among the several hundred who are learning to be drum majors and majorettes. They're finding there's more to marching than learning to twirl a baton.

Redlegs Down 'Tired Legs'

The Canyon major league Redlegs were victorious Saturday night over the "Tired Legs" in a game played at "Evans Field," 35 miles east of Canyon.

The Tired Legs, better known to Redleg players as "Mom" and "Pop," were unable to top the major league team, but according to rumors may have been handicapped by Umpire Butch Begert's decisions.

Home team managers were Mr. and Mrs. Glenn Evans, hosts, and Mr. and Mrs. Jim Fletcher. Outstanding Tired Leg team players were Sweetie Sternenberg and Winona Yarbrough.

Following the game, a picnic supper of hot dogs, soda pop, homemade ice cream and cake was served to the players and their families.

Games of dominoes and bridge, visiting and horseback riding were other activities for the evening.

The Redlegs also presented their manager for this summer, Velton Sorgee, with a gift of appreciation.

Mrs. T. W. Collins just returned from Altus, Okla., after attending a family reunion at Lake Lugert on Aug. 10 and 11.

Antelope--

Continued from Page 1

sons who held permits last year and relinquished them prior to the hunt so they could be reassigned.

Second priority will be given to those who did not get a permit in 1956, although they made application. Persons who did hunt last year will be third in priority, while persons under 18 and non-residents will be last in priority.

If a group applies as a party, priority assignments will be on the basis of the lowest priority member assigned from those applicants who did not get a 1956 permit. In this manner all members of the party can be assigned to hunt on the same ranch.

In addition to having an antelope permit the hunter also must have a valid hunting license and meet other requirements of a legal hunter.

The Texas Game and Fish Commission will designate the ranch on which permit holders may hunt. All antelope hunting shall be under direction and supervision of a representative of the Game and Fish Commission.

Shooting of game other than antelope will not be permitted on the same range. Antelope may be stalked but not chased by automobile.

In the Trans-Pecos area hunts will be permitted in Brewster, Jeff Davis, Pecos, Presidio, Culberson and Hudspeth counties on designated ranches. Landowners have agreed to charge a fee of not more than $60 for the privilege of hunting a buck, or $40 for hunting a doe.

In the Panhandle area, Oct. 14-16, the hunting area will be in Hartley County, north of U. S. 54, from the New Mexico state line to Punta de Agua Creek, thence north of the creek to its crossing of the FM road 767, thence north of 767 east to highway 51. On Oct. 17-19 hunting will be permitted in Hartley and Oldham counties between a designated line and the Canadian River. The Panhandle fee is not expected to exceed $25.

LIPSTICK LOGIC
by LOUISE ALLEN

Everybody needs a hobby. Or so more and more folks believe. And we agree.

A hobby gives a fellow confidence. It gets him out of the workaday grind, allows him to get lost from his troubles. It unties the knots of nervous tension, because usually it's a thing we do well and enjoy doing.

But lately we've been thinking that it's one thing to have a hobby and something else again to let a hobby have you.

The fellow who comes home from work, changes into bermuda shorts and t-shirt, and goes out to work on his boat for a couple of hours before supper gets wholesome relaxation out of it. Then he's in good shape to return cheerfully to his normal world. The housewife who spends her spare time making hooked rugs, gardening or doing specialty cooking can live happily with her family and herself.

But way too many folks let a hobby outgrow its quarters. They eat, drink, sleep, talk and live it. They let it crowd out friends, family and the rest of the world. It wags the dog.

A hobby that centers one's life has really got to be good. Saving people from drowning, raising funds for the unfortunate, teaching the blind to read, making something that gives people happiness because of its beauty, humor or usefulness — such interests as these might deserve a lot of time.

The fellow with few family ties and a lot of time on his hands can better afford to get carried away by a project than the mother of small children or the man on his way up in his job. Maybe we're old-fashioned, but it seems to us that even a worthwhile hobby shouldn't crowd out Junior's sore thumb, or a coke party for Mary Anne's friends.

Mr. and Mrs. C. G. Pond and Ivan visited relatives in Sayre, Okla., for a few days.

Mr. and Mrs. Eddie Anthony were weekend visitors in the Jim Carter home.

Mr. and Mrs. W. S. Wharton of Chickasha, Okla., are visiting in the A. M. Cunningham home. The Whartons are Mrs. Cunningham's parents.

Mr. and Mrs. Robert Teague and children of Arlington, Va., visited last week in the Felix Pierce home.

Mrs. Ray Graham and son, Kelly, of Las Cruces, N. M., are visiting her parents, the R. A. Smiths.

Vote Tuesday!

PROF.'S DICTIONARY

Half-baked — Descriptive of underdone officials who need turning over if not out.

Hose — Product of ladder manufacturers.

Limit — Something we never reach unless we admit it.

Soliloquy — Conversation with only one you really know.

Solitary — The man with the great idea for which the world isn't ready.

Success — Defeat of failure. That's all there is to it.

U. S. postage stamps were first placed on sale July 1, 1847.

SOIL CONSERVATION DISTRICT NEWS

What do you see as you stand on a bridge watching a rain-swollen stream? Some would see only water and notice perhaps that it was dirty. Another would think that it merely rained too fast for the soil to soak in the rainfall.

Had you ever stopped to think that the dirt in that swollen stream was precious top soil? That topsoil, the thin layer from which we gain our living, is being lost to us for all time. Have you stopped to think the topsoil being carried down that stream is actually that new kitchen for the home, a new television set, new farm equipment, new cars, a college education for the children or grandchildren, or even an existence for some future generation?

Would it not be better to see that stream running clear and calm, if it need run at all? A stream of clear water tells you immediately that no erosion is taking place on its watershed.

The supervisors of the Randall-Potter Soil Conservation District urge you to contact your local office of the Soil Conservation Service about a conservation plan for your farm or ranch. Technicians of the S.C.S. will recommend a combination of conservation practices best suited to you, the needs of the soil and the enterprises of your particular farm or ranch.

The Randall-Potter Soil Conservation District supervisors wish to publicly thank C. R. Burrow for the grass display case that was constructed and presented to the district by the Burrow Lumber Co.

Cle and Pat Pond visited relatives in Borger last Saturday.

Cherry Blossoms

BY DOVIE CHERRY

Dear Mr. Linotype Operator, better known as Charlie!

It is with deep regret that I tell you that the worst has happened. Yes, the well has run dry, the wheels have stopped, and here I sit, totally blank.

Blank, I say, blankety, blankety, blank.

I can't think of anything to say, much less write. Could a worst fate befall a woman? My goodness, who ever saw a woman with her mouth shut. Just to make myself at home, I'm going to sit with it open anyway.

I knew it would happen some day. I knew that some day I would sit here and nothing would happen. Mocking old typewriter. I bet there's a lot it knows and hasn't told.

Traitor! Just because I get in such a hurry that I'm always causing you to get your I's where the K's should have been and the V's where the B's are supposed to be. And just because I let you go around in last year's faded ribbon, that's no reason to be so contrary.

Tell me what you know. So you don't know anything either. Well, Charlie, looks like this typewriter is going to play dumb, and I'm no better off than I was.

I could tell about the carnival. But everybody knows about the carnival. Why, they couldn't come downtown and not know about the Lions Club Carnival.

But, say, have you noticed how much bigger it is this year? There's a real, true ferris wheel, a merry-go-round and everything. And, oh, boy, there are kids all over the place clutching sticky snow cones and saying, "Mama, I wanta ride just one more time."

There's a dunking board, booths, barker and prizes. It looks like a carnival, it smells like a carnival, and, sure enough, it is a carnival.

But, I guess everybody has heard about the carnival. Probably they have been there, too. But, if they haven't, I can at least tell them not to miss it. You have until Saturday night.

Oh, groan. What else? I know—a story! That's it. A story is always a good trick. Charlie, you sit down in front of that linotype and I'm going to tell a story.

This is a fishing story.

Once upon a time, last week to be exact, there were three Canyon fishermen who went fishing at Buffalo Lake.

Now, the moon was just right for channel cat fishing and their expectations were great. So, out in the boat they went and they fished and they fished and they fished and they fished some more.

But, no fish. Finally, one of the men got his line caught on the bottom and he worked it loose and pulled it in. And, believe it or not, on his hook was somebody else's line and on the end of somebody else's line was another hook and on that hook . . . nothing.

Nothing, that is, except a nasty, old, fat channel cat. And Royal Brantley, I've just stole your fishing story.

☆ ☆ ☆

Too bad the story wasn't longer. There's more space to fill.

All right, I'll just tell another story. This one is true, too.

One day last week, Martha Harper, young daughter of Mr. and Mrs. Ples Harper, came running in the house all excited.

"Mommy," she cried, "the cat has laid some kittens!" And Mommy agreed that was wonderful.

After awhile, the family went riding and Martha had time to think as all little alert young minds do. She said, "Mommy, do the cows lay calves?" "Yes, dear," Mommy replied.

Martha continued, "And the horses lay little horses and the pigs lay little pigs and chickens lay little chickens . . . and houses lay garages."

Well, now, that story just about took care of the space this yakety yak is supposed to fill. Oh, more?

Hum. Let's see. School is about to start, and that means the summer is just about gone. It will be if I don't hurry up and finish this column.

But, speaking of the opening of the school term. There's a nice surprise waiting for the homemaking girls at the high school homemaking department.

The department has two new beautiful gas ranges. One is the latest in ranges—the type we wishful housewives were all reading about last yeear. The one I'm speaking of has the temperature control burner that adjusts to the heat of the food so that nothing ever burns.

The same range has a broiler compartment which features a broiler pan that is rolled up and down to the height desired. The other range has an oven control which can be set to cook a roast rare, medium or well done.

It works, not by what a control says should be the time for the roast to be one of the desired degrees of doneness, but by a gadget, one end of which goes into the roast. When the right temperature is reached in the meat, the little bell rings.

There's also a shiny, white and pastel colored gas refrigerator. The feature in this refrigerator would make it very, very nice for a home with small children. The door has no catch and can be opened from the inside as well as the outside. It also is easy to open if the cook has her hands full.

I think it's mighty nice for the high school girls to learn to cook with such modern conveniences. It certainly makes it more of a pleeasure to learn.

But, cut my tongue off, I'm going to say it. The girl who learns to cook exclusively in such a beautiful, modern laboratory, learns to whip up a fancy dish, catches her man and marries may then be in for an awfully rude shock.

☆ ☆ ☆

What? I've written enough? Well, so I have.

Okay, Charlie, I'm going to gather up my pile of fingernails and call it a day.

Bride-Elects Are Feted at Breakfast

A come-as-you-are breakfast honoring June Davis, Ann Moore and Martha Quillen was held Tuesday morning in the home of Nancy Kay Tomlinson. Co-hostess was Diane Prichard.

Miss Davis is the bride-elect of Robert Schulgen of Lubbock; Miss Moore is to become the bride of Larry Dean Griffin of Earth; and Miss Quillen is the bride-elect of Billy Dean Harmon of Matador.

Breakfast was served on card tables in the den. Each of the three tables was centered with a crossed wooden fork and spoon tied with a gold ribbon with gold streamers inscribed with the honorees' names.

The hostesses presented the fork and spoons as gifts to the honorees.

Attending the breakfast were Janis Wright, Wanda Rogers, Barbara Bacon, Virginia Leake, Charlotte Crain, Lynn Atkinson, Nelda Coffee, the hostesses and the three bride-elects.

Mr. and Mrs. John Brazzil and Connie vacationed at Red River last week.

Three Courtesies Honor June Davis

Three prenuptial courtesies have honored recently June Carolyn Davis, bride-elect of Robert Schulgen of Lubbock. Miss Davis and Mr. Schulgen are to exchange wedding vows Aug. 24.

A coffee was given Aug. 7 in the home of Mrs. H. B. Hales of Amarillo. Ruby Lee Hales assisted Mrs. Hales with the courtesy.

In the receiving line were the honoree, her mother, Mrs. I. Clyde Davis and Miss Hales.

Mrs. Floyd Tomlinson presided at the silver coffee service. The table, laid with a white lace cloth over yellow, was centered with an arrangement of yellow and white gladioli.

Approximately 20 guests attended.

Mrs. Gerald Dietz was the hostess for a kitchen shower given Miss Davis. Mrs. Dietz also lives in Amarillo.

The bride-elect and Mrs. Dietz greeted the guests.

Laid with a white organdy cloth, the serving table featured a centerpiece of white styrafoam inscribed with the names and wedding date in yellow. A bouquet of yellow daisies completed the arrangement.

A coke party Aug. 2 in honor of the bride-elect was given in the home of Virginia Leake. Each of the girls attending brought her favorite recipe and presented it to Miss Davis.

The hostess' gift was a recipe file box.

Present were the honoree, her mother, Mrs. I. Clyde Davis, Ann Moore, Ruby Hales of Amarillo, Rita Jo Neal, Rhea June Stephens, Alice Dietz, Nancy Kay Tomlinson, Janis Wright, Barbara Bacon, Dorothy Neblett, Miss Leake and her mother, Mrs. Iverson Leake.

Mr. and Mrs. C. V. Lowe and Bud Lowe and boys of Gruver were present in the G. B. Combs' home Sunday to help Mr. Combs celebrate his birthday.

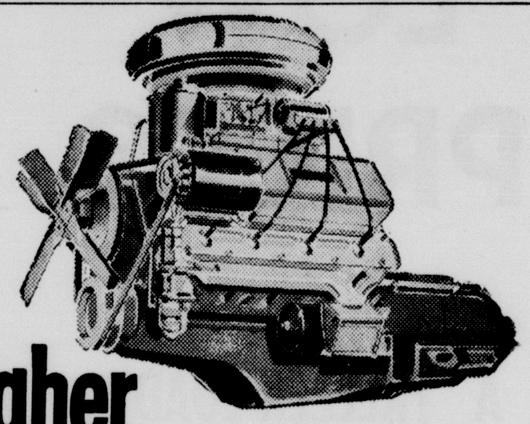
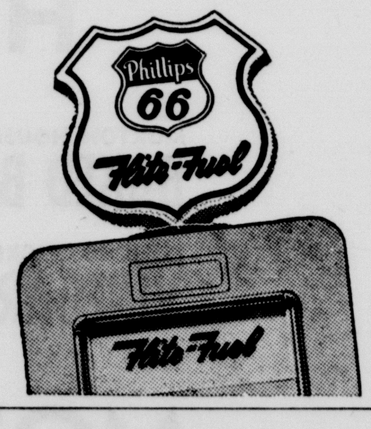
To help you get the best performance from today's higher powered, higher compression motors...



A New, Higher Performance
PHILLIPS 66 FLITE-FUEL



If you'd like to know how good your new car really is, *Test Drive* new Phillips 66 FLITE-FUEL! The proof is in the driving!

Not only new cars, but older cars, too, benefit from the remarkable performance qualities of new FLITE-FUEL. It has extra high octane for smoothness and long mileage. It's the only gasoline containing added *Di-isopropyl*. It's *clean burning!* And FLITE-FUEL is specially made for *local driving conditions*. It's blended for the climate and the season.

Test Drive this *new* Phillips 66 FLITE-FUEL! Fill up at your Phillips 66 Dealer's, and discover a *new high in performance!*

WARREN'S

Biggest Sellers...because they're Biggest Savers!

More truck owners know that Chevrolet . . . with its wide range of models . . . offers the right capacity and power to stay and save on any job!

Durable Chevrolet Task-Force trucks are doing more jobs—and getting them done more quickly and efficiently than any other truck. And because of their brawny build, big-load capacities, and many modern features, Chevrolets save time and money around the clock!

Take a look at Chevrolet's hard-working pickups. You can take your pick of big, roomy bodies with hardwood floors, skidstrips, and grain-tight tailgates.

And for the right power, Chevrolet offers a lineup of super-efficient engines from 140 all the way up to 210 h.p.

From a wide range of models—perky pickups, middleweights, tough tandems—let your Chevrolet dealer help you select the right truck for your job. See him soon!

chop more tonnage
with less power...with a
McCormick® 20-C Field Harvester
Stop in and we'll show you why you can harvest your forage crops at up to 25 tons per hour with a McCormick 20-C field harvester. See the large, flywheel type cutterhead that provides a steady cutting action through the heaviest crops with a minimum of power. We'll be glad to show you all the features that enable the 20-C to harvest the heaviest crops without plugging.
We'll also show you how you can switch from row-crop to hay pick-up harvesting in minutes!
See us about a dual-purpose McCormick 20-C field harvester the next time you're in town.

4-H Girl To Go On Talent Tour

Alby Ann Kuehler, Randall County 4-H girl, will be among nine Texas 4-H Club members who will appear on the program at the annual meeting of the American Institute of Cooperation to be held at Colorado State University, Ft. Collins, Aug. 15-22.

Miss Kuehler will be among the five 4-Hers who will appear as speakers on sectional programs.

The group will leave Amarillo Aug. 15 for a tour, which will include, in addition to attendance at the Institute, visitation of cooperatives and scenic and historic spots in Texas, New Mexico and Colorado.

The 4-H boys and girls will be guests of the Producers Grain Corporation of Amarillo and the trip will begin and end in Amarillo.

Since 1942 the Amarillo corporation has sponsored in cooperation with the Texas Agricultural Extension Service, the Talent Club, which makes possible recognition for at least 16 4-H members each year.

Mr. and Mrs. Walter Thornberry of Utopia and Mr. and Mrs. Herbert Woodward and Wayne of Houston visited with Mrs. Donnie Collins and Mr. and Mrs. R. T. Furlow.

Amity Club Meets Friday With Cox

The Amity Club will meet Friday with Mrs. Penny Cox. Mrs. Cox lives at 2201 8th St.

Judge and Mrs. Clarence Morris of Shamrock visited the L. E. Gums Saturday. Mr. and Mrs. Gum attended the Gossett-Crown-over reunion at the fair grounds in Amarillo Sunday.

Vote Tuesday!

Mrs. John Bell Jr. and children of Plainview visited last week her sister and family, the J. B. Hickmans. Becky is spending a week with the Hickmans.

Mr. and Mrs. Kenneth Duncan and Lorna visited with friends in Boise, Idaho, and fished at Lake Alturas. They returned from the 10-day vacation via Los Angeles.

Mr. and Mrs. Redmond Hand visited their children in Turkey and Plainview Sunday.

FREEZER frees her!

one for now... one for later!

It's just as easy to prepare more than one — when you have a way to safely store the "extras". You bake at your convenience, then when guests drop in you're prepared — not only with extra cake but with dozens of other foods, even complete meals. And, you may be sure that freezer-frozen foods will always taste just right for they hold their flavor, their goodness and their healthfulness. A food freezer is a proven holder of food-freshness. Get yours now, then next time you bake, bake two — or more.
